

B. B. LEAFLET No. 2.

Why do I Believe in The Boys' Brigade?

(Leaflet of an address delivered at a Public Meeting of the British Association, by the Rev. J. S. STEWART, Chaplain, and Missionary)

...a complete equipment for the work and battle of life. The essence of the Brigade, the motive which lies behind all its activity, the inspiring power of those who direct its affairs, and the efforts of the Officers of each Company, is the conversion of the Boy to Christ.

...of this to be seen in action. Those who have most completely identified themselves with the Brigade movement realize with perfect lucidity that this is their aim as it is the object of all their work.

The Boys' Brigade desires more than any organization, it desires more than any organization, and I desire to testify that it is an agency which is fitted to make every young man in the Kingdom of Christ. The time for scepticism and doubt is past. The Brigade has already justified itself in every particular by the persistence of the highest virtues of Boys, and I sincerely trust that it will receive universal sympathy and support.

B. B. LEAFLET No. 1.

What is The Boys' Brigade?

...I think you, Captain, I said, in bidding adieu, as the Boys went tramping out of the room. "The Bible-Class under the master's eye. I see the meaning of the whole thing now, and know what The Boys' Brigade is and what it can do. Tell me where I can get information as to how to start a Company."

"Nothing easier," replied my friend. "Write to the Brigade Secretary, Head-Quarters Office, Glasgow, enclosing one shilling for a set of B. B. publications, including *The Boys' Brigade Manual*, which contains all the information needed. On letter will pay a visit to Head-Quarters, where you will receive a hearty welcome from Mr. W. A. Smith, who is usually there as Brigade Secretary."

I took his advice, and now we have what promises to be a flourishing Company in connection with our Church. "Yes, we have not yet attained to the dignity of a Brass Band, nor have we even secured a 'Boys' Room', but our motto is 'No Impugnatum'."

I have now come a good deal in contact with Brigade Officers all over the country; and the more I see of them the more I admire them.

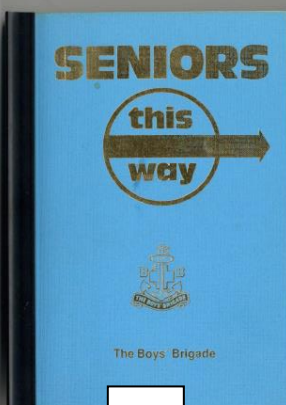

...I am perhaps a bit old-fashioned, and maybe I do put on my rose-colored spectacles when I look at the Boys that are past, but I tell you honestly, Sir, every time I go up to one of our big towns and take a walk along the streets on a Sunday night, I wonder what our country is coming to.

But the outlook always gets brighter when I think of our splendid volunteer army of Sunday School teachers and workers among the young; and of these fine thousand young men in The Boys' Brigade, who are giving themselves heart and soul to the work of training the Boys of today, who are the ones of tomorrow, in habits of obedience, reverence, discipline, self-respect, and all that leads towards a true Christian manliness.
